Subject: MUR 7131

Mr. Jordon,

I would like to add some additional information regarding NGP Van Inc. to the complaint that I filed regarding the Shea-Porter campaign and Senior Votes Count.

After further reviewing the past 18 months filings by Senior Votes Count on the FEC website and my submission, I see that the issue of NGP Van Inc. was not thoroughly addressed. Further, I see an repeating pattern of debt forgiveness between the two parties.

The filings show two types of charges by NGP Van Inc.. Either small \$8-19 charges or charges of \$250 plus. I am assuming, based upon their services, that the larger charges are for voter information lists.

Of importance are the two "credits" to existing debt on the 12/31/14 report from Senior Votes Count. The first is a \$300 credit to a \$550 outstanding debt. The second is a \$250 credit canceling out a \$250 debt.

I believe that I saw the same type of "credits" to outstanding debt on the Carol Shea-Porter Campaign Committee filings.

Either NGP Van Inc. is incredibly bad at their billing or they are making after the fact "in-kind contributions" to parties by issuing credits against billings.

Please apprise me of the proper actions required, if any, to amend the complaint.

Thank you for your assistance.

Brian Griset
